with reference to above noted tender and subsequent corrigendum 1 issued after Pre-Bid meet, the following  
changes/clarifications are being made which the prospective bidders shall take into account while submitting their bid. :**

Sl. No.	Corrigendum - 1 S. No.	RFP Document Ref.	Content of RFP	Response given in Corrigendum 1	The Clause will now be read as
1	9	Page No. 57	If the Bidder opts for the paper from more than one mill, then he is required to submit original test report for all the sample papers from any Govt. laboratory as well as samples of paper from all the mills. However in case of samples from more than one mill meet the required standards in paper test report; the Bidder will have to use only one mill paper.	No Corrigendum required.	If the Bidder opts for the paper from more than one mill, then he is required to submit original test report for all the sample papers from any Govt. laboratory as well as samples of paper from all the mills. However in case of samples from more than one mill meet the required standards in paper test report; the Bidder will have to use only one mill paper in particular book. <b>Using paper of more than one mill in a single book will not be permitted.</b>
2	10	Page No. 58	Four colour Web Offset Machine with a minimum cut off 508 mm/578 mm for package- 1 to 4 - three units each size.	No Corrigendum required.	Four colour Web Offset Machine with a minimum cut off 508 mm/578 mm for package- 1 to 4 - three units with at least one machine of each size or at least one any other superior quality machine with the capacity of more than three unit four colour Web Offset Machines.
3	23	Page No. 58	Four colour Web Offset Machine with a minimum cut off 508 mm/578 mm for package- 1 to 4 - three units each size.	<b>For Package 1 to 4</b> Three unit four colour web offset machines with a minimum cut off 508 mm/578 mm for each size or at least one any superior quality machine with the capacity of more than three unit four colour web offset machines.	Four colour Web Offset Machine with a minimum cut off 508 mm/578 mm for package- 1 to 4 - <b>three units with at least one machine of each size or at least one any other superior quality machine with the capacity of more than three unit four colour Web Offset machines.</b>
4			Due to shortage of paper, it may not be possible to use paper from one mill only to print all the titles of a single package. Hence, the printers may be allowed to use the paper of more than one qualified mill in printing of books of a single package. However, the use paper of other than one qualified mills in a single title should not be allowed.	The printers are allowed to use the paper of more than one qualified mill in printing of books of a single package.	However in case of samples from more than one mill meet the required standards in paper test report; the Bidder will have to use only one mill paper in particular book. Using paper of more than one mill in a single book will not be permitted.
